REVELATION

DISCOVER
PharmASSIST OPTI_x[™]

PharmASSIST OPTI_x is a game changing optical counting and imaging technology that delivers a combination of speed and accuracy, high-resolution imaging, and remote verification to transform how your pharmacy fills and verifies prescriptions.

Remarkably fast and precise, PharmASSIST OPTI_x counts pills in 200 milliseconds with 99.99% accuracy and also identifies any foreign matter or dissimilar pills on the counting tray.

To facilitate remote prescription verification, PharmASSIST OPTI_x takes a high-resolution image of each prescription's vial contents and vial label, and automatically displays them on your pharmacist's workstation... no matter where your verifying pharmacist is stationed. They can be upfront counseling patients or offsite at another pharmacy, a central processing center, or even working from home.

With PharmASSIST OPTI_x, you redefine conventional workflow and reposition your pharmacists to deliver true value... verifying prescriptions, counseling patients, and performing revenue-generating activities that differentiate your business.

Discover PharmASSIST OPTI_x and transform your pharmacy's workflow today.

Pharmacy Automation Solutions

TALK ABOUT A GAME CHANGER

PharmASSIST OPTI[™]x

Unparalleled Speed & Accuracy

- Counts pills in 200 milliseconds with 99.99% accuracy.
- Identifies and alerts you to any foreign matter or dissimilar pills on the counting tray.

Next Generation Remote Verification

- Takes a high-resolution image of each prescription's vial contents and vial label, and automatically displays them on your pharmacist's workstation (onsite or offsite) for remote verification.
- Provides in-depth drug image database for comparison to filled prescription images.
- Stores each prescription's images as part of the patient history record, enabling quick retrieval for PBM audits and to confirm the quantity dispensed.

Seamless Workflow & Process Control

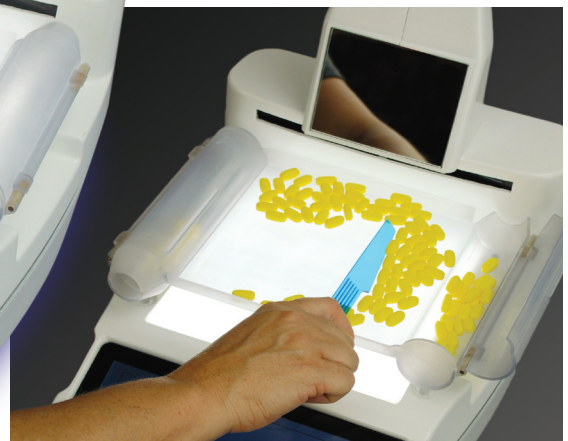

- Processes non-countable medications — ointments, liquids, syringes, etc. — for filling and remote verification in addition to countables.
- Operates in stand-alone mode or integrated with our PharmASSIST Symphony[®] workflow systems, enabling end-to-end prescription tracking and reporting.
- Assists with physical inventory control.

Maintenance Free

- Eliminates tedious cleaning of dispensing chutes and parts; all you have to do is wipe down the dispensing tray.

Small Footprint

- Fits conveniently on any pharmacy countertop: 10.5" W x 17"D x 17"H.
