

SmartScale

SYSTEM

**Precision Counting Scale
Increases Workflow Efficiency.**

The precise, easy-to-use PharmASSIST SmartScale™ adds quality, versatility, and efficiency to your pharmacy's workflow. Fully integrated with PharmASSIST Symphony®, SmartScale provides a fast, accurate filling option that can serve as your main Manual Filling workstation for countable medications. You can also use SmartScale to augment your existing manual filling process with affordable countertop counting technology.

PharmASSIST®
Powered by INNOVATION

Fulfills Industry Requirements

- Class II pharmacy prescription scale.
- NTEP-approved for counting and weighing.
- Meets NIST Handbook 44 requirements.

Increases Productivity and Enhances Workflow

- Precisely and instantly weighs/counts tablets and capsules.
- Pharmacy compounding scale.
- Verifies stock bottle bar code against customer prescription label bar code to ensure dispensing accuracy.
- Seamlessly communicates with PharmASSIST

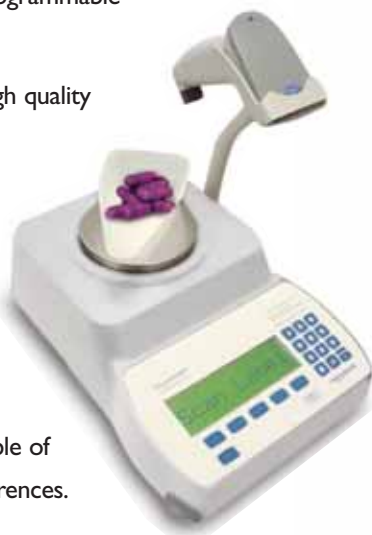

Symphony® (workflow management system) via your network.

- Operates with intelligent, fully programmable embedded computer.
- Displays multiple font sizes on high quality graphics display.

Provides Comprehensive Piece Weight Database

- Piece weight database comes preloaded with over 2300 item database across all manufacturers.
- Optional onboard database capable of storing 10,000+ unique drug references.
- When integrated with Symphony, pill weights are stored in PharmASSIST database, enabling an unlimited number of values to be stored.
- Automatic pill weight updates available from Innovation.

Enables Multiple Operation Modes

- **Workstation** – Integrated with Symphony as a Manual Fill station for countable medications.
- **Peripheral** – Integrated with Symphony to augment Manual Fill station with low-cost counting technology.
- **Stand-alone** – Used as a stand-alone device without Symphony.

Footprint

9.6" W x 13" L

Electrical

120 VAC

60Hz wall transformer included

Manufactured in USA
